EXPERIENCE

Flutter Intern
Zenzzen Pvt Ltd
05/2022 - 06/2022   *Duration: 1 Month*

ReactJS Developer
Streamspace AI
02/2023 - 08/2023   *Duration: 6 Month*
Achievements
- I skillfully crafted a Dashboard Panel with React.js, harnessing tools like Redux, Material UI, and an array of others, resulting in a feature-rich and visually appealing user interface.
- In my prior role, I actively contributed to a CRM project, adeptly resolving critical bugs, introducing innovative features, and consistently delivering high-quality code for enhanced system stability and functionality.

PROJECTS

Realtime Tic Tac Toe
- I constructed a real-time 2-player Tic Tac Toe game using React.js and WebSocket technology.
- It showcases my ability to implement real-time communication through WebSockets, highlighting my continuous learning and application of advanced technologies.

Smart Voting System
- Utilizes facial recognition for secure candidate verification during the voting process.
- Developed with a tech stack including Python, MongoDB, NodeJS, Express JS, HTML5, CSS, and JavaScript
- Demonstrates a practical application of various technologies for real-world problem-solving.
- Seamlessly integrates front-end (HTML, CSS, JavaScript) with back-end (NodeJS, ExpressJS) components.
- Provides a user-friendly and intuitive voting experience with a well-designed interface.
- Data storage and management are handled using MongoDB for efficient and reliable storage.

Fashion Website
- I created a stylish single-page Fashion Website using HTML5, CSS3, and ReactJS.
- The project, accessible at https://example-figma-web.netlify.app/ , demonstrates my proficiency in ReactJS and showcases my ability to design and develop engaging user interfaces.

Blog Website
- The project, accessible at https://blog-app-ijxe.onrender.com/ , demonstrates my proficiency in ReactJS and showcases my ability to design and develop engaging user interfaces.
- I developed a straightforward single-page blog website, emphasizing seamless navigation and content presentation.
- The site showcases my ability to design intuitive user interfaces and effectively organize information.

EDUCATION

BTECH IT
Indus University
01/2019 - 04/2023   *Ahmedabad*
